

A Sink for All Seasons

The dazzling new [Marquee™ Collection](#) of undercounter bathroom sinks from [Porcher](#) includes four shapes, three sizes, and six surfaces — that's an astonishing 96 unique options in all. Which means there's a model that's perfect for almost any style or size bathroom.

Round, oval, square, or rectangular, all the symmetrical and balanced vitreous china basins in this refined collection feature exquisite chamfered detailing inspired by the faceted, ever-changing beauty of diamonds. And like those precious gemstones, Marquee basins are chameleons that fit multiple settings, from a tightly organized powder room to a lavishly expansive master bath.

Designed for undercounter installation, the sinks come in three colors — white, biscuit, or black — in either a matte finish or the innovative EverClean® permanent glaze, which inhibits the growth of mold and other stains, keeping the surface diamond bright.
